COMMITTEES HARD AT WORK

TO MAKE DAY BIG SUCCESS
But the Buby Show will not be the only attraction on Labor Day. Various committees are hard at work on plans which, the members assert, will insure a celebration which will eclipse raything of the character yet attempted.

There will be races, which will include the following events: 224 trat; free-for-all; running race, and comic race. The mounts in the latter will be mules, and the last to cross under the line will win the prize. Motorcycle races, under the direction of G. H. Tompkins, which will consist of five events, are also expected to prove a drawing card.

Besides these amusements, there will be mule for dancing during the day, and during the forenoon a baseball game is scheduled. Ryan-Smith and the Battle Axe teams, champions of the amateur leagues, at 19:30 o'clock will begin a battle for the amateur supremery in Richmond.

COMMITTEE DECIDES TO

ELIMINATE STREET PARADE. The street parade, which was the opening feature of Labor Day last year, will be eliminated this year, as the committee on arrangements believes that those who wish to join in the celebration will prefer to go early to the Fair Grounds, instead of remaining in the city.

The committee in charge is composed of the following members:

J. L. Butcher, S. L. Cottrell, F. X. Hughes, W. W. Savage, C. E. Rise, E. W. Rudd, Charles R. Gates, John B. Burroughs, M. Gravvett, F. G. Helfert, E. P. Eck, E. C. Murray, John Murray, R. C. AWAITS WORD FROM GERMANY

Government Prepared to Be More Lifteral in Censorship on Wireless.

WASHINGTON, August 22.—Although final decision caunot be announced until word has been received from the German government, the administration to-day prepared to put into effect a more liberal censorship on wireless messages, and abandoned the idea of censoring cables. Hanlel Von Halmhausen, German charge d'affaires, has communicated details of the new plan to his government. Embassies and consulates of all belligerents would be permitted to use the wireless to send code messages, provided they satisfied the haval officer in charge at the receiving station of the neutral nature of dispatches.

The British government, it is understood, favors the plan so long as it prevents agents of any belligerent countries from sending information direct from the shores of the United States to send it to all sufferers FREE. You care yourself at home as thousands
